

GhIE

GHANA INSTITUTION OF ENGINEERING

41ST INDUCTION CEREMONY

 Thursday 22nd February , 2024

 Engineering Centre, Roman Ridge, Accra

 2:00pm

SUSTAINABLE
DEVELOPMENT
GOALS

SPONSORS

Programme

2:00PM **Ghana National Anthem/GhIE Anthem**

Opening Prayer

President's Welcome Remarks

Ing Kwabena Bempong, FGhIE (President, GhIE)

Address by Chairman of Membership Committee

Ing Dr. Patrick A. Bekoe, FGhIE

Induction Ceremony

Swearing of Oath

Presentation of Certificates

Presentation of Award

Word of Advice

Ing Dr Kwame Boakye FGhIE (Past President)

Closing Remarks

Ing David Kwatia Nyante, FGhIE (Executive Director, GhIE)

4:00PM **Closing Prayer**

MC:

Ing Edward Melomey

Brief History of GhIE

Ing. Kwabena
Bempong, FGhIE
President, GhIE

Ghana Institution of Engineering (GhIE) was officially founded in 1968 to promote quality engineering practice in Ghana comparable to global standards. The GhIE is the professional body which is responsible for the certification of engineering practitioners (Professional Engineers, Professional Engineering Technologists, Engineering Technicians and Engineering Craftsmen) prior to registration with the Engineering Council of Ghana. The GhIE derives its authority from the Professional Bodies Decree NRCD 143, 1973 and the Engineering Council Act, 2011 (Act 819). In 1999, Women in Engineering (WinE) was founded to attract more females into the profession.

The GhIE ensures that practitioners in the Engineering industry maintain professional standards, adhere to regulations, guidelines and codes of ethics of engineering practice by conforming to internationally established technical, environmental and safety standards.

The GhIE represents over 10,000 registered professionals who are spread over four main technical divisions namely CIVIL, ELECTRICAL, MECHANICAL and CHEMICAL. Modern engineering disciplines such as the likes of computer engineering, aerospace, biomedical, petroleum engineering, oil & gas etc, are all grouped under one of these divisions.

GhIE collaborates with the government (ministries, departments, agencies, district assemblies) and private sector (Built Environment Professionals) to enhance institutional practice in the built environment sector.

Ing. David Kwatia
Nyante, FGhIE
Executive Director, GhIE

Message from the Chairman of the Membership Committee

Ing Dr. Patrick Amoah Bekoe, FGhIE
Chairman, Membership Committee

I congratulate each and everyone of you on this auspicious occasion for becoming full members of our reputable Institution. You have reached this feat by dint of hard work and should be proud of yourselves.

The first step to becoming a professional engineering practitioner is to obtain the requisite academic qualifications. However, professionalization involves a lot more than academics. It requires one to undertake experiential learning, both technical and ethical, under the tutelage of senior professionals who later testify about one's readiness to become a qualified professional.

Our noble Institution is privileged to have professionals who understand the importance of professionalization and have assisted the Membership Committee on pro bono basis in examining applicants who want to become full professional members. The rigorous nature of our examination has sometimes caused many to shy away from this Institution while at the same time attracting those who value professionalism to come in their numbers. Indeed, the number of applicants for full membership is on the rise.

You all have gone through a three-pronged examination process, and I can confirm to the Council and the President of our Institution that you

have all accredited yourselves and should be admitted as full members. As part of the concept of professionalism lies the importance of continuous education and maintenance of high professional standards. I have no doubt that you are all competent in your chosen field of practice; however, with the ever-changing technological horizon coupled with the effect of globalization, any professional who fails to keep learning will become obsolete and irrelevant, especially in this fourth industrial revolution. Our Institution's guideline for Continuous Professional Development (CPD) is something that I will recommend you judiciously follow as you embark on this professional odyssey. The maintenance of high professional standards and ethical behaviour is sine-qua-non to your professionalisation. I dare say without this your professionalism is meaningless, thus I urge you to maintain the highest form of moral and ethical canon throughout this journey.

Finally, I invite you to positively contribute to the development of our noble Institution. Do not be passive or a bystander. Be active in Committee meetings, Branch activities, Annual General Meetings, and other sanctioned activities by the Council. When called upon by the Membership Committee to assist in examining incoming members, do not renege on your professional duty. I wish you all success on this long professional journey you are beginning today and I hope and pray that you will all to help lift high the name of the engineering profession in Ghana and beyond.

Sincerely

Ing Dr. Patrick Amoah Bekoe
Chairman, Membership Committee

Roll Of Members

CHEMICAL/MINING | TECHNICAL DIVISION

**Ing Caleb Selase
Sam**

Engineers Pledge

I, in the presence of these persons here present, pledge the highest standards of moral, professional and ethical conduct.

I pledge to uphold, preserve, protect and defend the constitution of the Ghana Institution of Engineering (GhIE) and shall subject myself to the decisions and directives of the Council, the governing body of the Ghana Institution of Engineering.

I shall discharge my duties as an engineer in honesty, fairness and truthfulness and shall be just and courteous, exhibiting the highest form of moral philosophy.

In as far as it is within my capabilities, I shall co-operate in extending the effectiveness of the engineering profession by my contributions to the training of engineers and the safe practice of engineering in the Republic of Ghana and beyond.

I pledge to uphold the honour and dignity of the engineering profession and shall not advertise my work or merit in a self-laudatory manner, in all these, having due regards for the safety of human life, the environment and property, so help me God.

Technologists Pledge

I, in the presence of these persons here present, pledge the highest standards of moral, professional and ethical conduct.

I pledge to uphold, preserve, protect and defend the constitution of the Ghana Institution of Engineering (GhIE) and shall subject myself to the decisions and directives of the Council, the governing body of the Ghana Institution of Engineering.

I shall discharge my duties as a technologist in honesty, fairness and truthfulness and shall be just and courteous, exhibiting the highest form of moral philosophy.

In as far as it is within my capabilities, I shall co-operate in extending the effectiveness of the engineering profession by my contributions to the training of technologist and the safe practice of engineering in the Republic of Ghana and beyond.

I pledge to uphold the honour and dignity of the engineering profession and shall not advertise my work or merit in a self-laudatory manner, in all these, having due regards for the safety of human life, the environment and property, so help me God.

Ing Fiifi Nyarkoh Otoo
PE-GhIE - 10320

Civil

Ing Mac-Steve Attimah Mawutor Jnr
PE-GhIE-13030

Electrical/Electronic

Ing Joseph Kotey Ashie
PE-GhIE - 15182

Mech/Agric/Marine

Ing Kwadwo Opong-Kyeremeh
PE-GhIE - 15120

GHANA NATIONAL ANTHEM

God bless our homeland Ghana
And make our nation great and strong,
 Bold to defend forever
The cause of Freedom and of Right;
 Fill our hearts with true humility,
 Make us cherish fearless honesty,
And help us to resist oppressors' rule
With all our will and might for evermore.

GhIE ANTHEM || By Professor Mrs. Esi Awuah HFGHIE

- 2x Engineering is the key for development
GHIE stands for Ghana's growth
We conceive, design and build for human basic needs
Protect nature for sustainability

- 2x With the help of God
The master engineer backed by excellence and integrity
GHIE is capable of making Ghana great and the world a better place to live

- GHIE is capable!
GHIE is capable!
Let's rise and build our world with hope
GHIE is capable!
GHIE is capable!
Let's rise and build our world with hope.

Mission Statement

To Develop, Promote and Sustain Sound and Competent Engineering Practice in Ghana Comparable to Global Standards

Vision

To Build And Develop a Strong World Class Professional Body by Promoting Integrity, Accountability and Excellence in The Practice of Engineering in Ghana

The GhIE is the professional body which is responsible For certifying practising engineers in Ghana.

*The GhIE derives its authority from the **Professional Bodies Decree nrcd 143, 1973 and the Engineering Council Act, 2011 (ACT 819.)***

Core Objectives

- *To establish and maintain a register of Engineering Practitioners Qualified to Practice in Ghana*
- *To ensure that members of the Ghana Institution of engineering maintain Professional standards, adhere to Regulations, guidelines and codes of Ethics of Engineering Practice*
- *To ensure that Engineering Practice in The country conforms to Established Technical, Environmental and Safety*

Diversifying our Generation Portfolio for Sustainable Power Supply

The Volta River Authority has, since 1961, harnessed the resources of the Volta River to provide electrical energy for industrial, commercial and domestic use in Ghana, as well as transportation, fishery and recreation.

Starting with a generation capacity of 588MW, VRA now operates close to

2,474.5MW from its hydro, thermal and solar plants.

VRA continues to diversify its generation portfolio by exploring cleaner, cheaper and renewable sources of power generation such as wind and solar energy to sustain power supply.
